| | competence. Planning ability implement and |
| | develop lessons with and on ICT and media |
| | that support the pupils' ability to become |
| | |
| | critical explorers, analytical receivers, goal- |
| | oriented and creative producers and |
| | responsible participants. |
| Special (Professional) | SC-1. Substantive competence. Ability to |
| Competence (SC) | using knowledge and skills professional |
| | academic disciplines that are theoretical |
| | framework with educational branches for the |
| | basis of the requirements specified in the |
| | vocational Education Standard. |
| | Substantive competence have in the form: |
| | philological, mathematical, technological, |
| | |
| | scientific, art. |
| | SC-1.1. Philological competence. |
| | Philological competence is basic to |
| | understanding the relationships between the |
| | modern philology and the humanities, as it |
| | comprises the necessary knowledge of the |
| | structure of the native and foreign languages, |
| | the ability to interpret complex linguistic |
| | phenomena in the native and foreign |
| | languages. |
| | SC-1.2. Mathematical competence. Ability to |
| | develop and apply mathematical thinking in |
| | order to solve a range of problems in everyday |
| | situations. Building on a sound mastery of |
| | • |
| | numeracy, the emphasis is on process and |
| | activity, as well as knowledge. Mathematical |
| | competence involves, to different degrees, the |
| | ability and willingness to use mathematical |
| | modes of thought (logical and spatial thinking) |
| | and presentation (formulas, models, constructs, |
| | graphs, charts). |
| | SC-1.3. Technological competence. Ability to |
| | organization position in the reality that having |
| | of technology can provide a competitive |
| | advantage. Organizations incessantly search |
| | for innovations to make their products |
| | distinctive from those of their competitors. |
| | distillence itom mose of men competitors. |

| SC-1.4. Scientific competence. Ability to using |
|---|
| of natural and sciences knowledge and skills at |
| affordable levels for elementary school pupils. |
| SC-1.5. Art competence. |
| Ability to understanding passion, navigating |
| the intricacies of building up own art |
| collection and securing art legacy for future |
| generations. Turning vision into reality |
| requires long-term partnerships built on |
| understanding and trust, which for pupils form |
| the foundation for shaping great wealth. |
| 1 |
| SC-2. Psychological competence. Ability to |
| using personal skills and knowledge for a |
| professional position, as well as the |
| psychological skills and emotional intelligence |
| to do the job. Ability to using emotional |
| intelligence, self-awareness, impulse control, |

| | school pupils, assessment criteria of evaluation | | | | |
| | of educational attainment of elementary schoo | | | | |
| | pupils. | | | | |
| | 1) to use knowledge, ability and skills, | | | | |
| Ability (Ab) | | | | | |
| Ability (Ab) | educational branches with the basis of the | | | | |
| | requirements specified in the vocational | | | | |
| | Education Standard of primary general | | | | |
| | education with educational-cognitive and | | | | |
| | professionally-orientated tasks; | | | | |
| | 2) to use methodologies of study of individual | | | | |
| | features of motion of cognitive processes for | | | | |
| | junior pupils; | | | | |
| | 3) to design the process of studies for junior | | | | |
| | pupils of certain object : to develop the | | | | |
| | projects of lessons and their fragments, | | | | |
| | methodology of prosecution of separate types | | | | |
| | of tasks, to create methodology of preparate types of tasks, to create methodology of preparatory work, acquaintance and forming of presentations and concepts, abilities and skills with the objective of capture of certain | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | elements the content of the program pupils; | | | | |
| | conduct lesson at elementary school, the | | | | |
| | lesson review in relation to the achievement of | | | | |
| | it objective and tasks, to estimate efficiency of | | | | |
| | the applied forms, methods, facilities and | | | | |
| | technologies; | | | | |
| | 4) to use monitoring of quality of educationa | | | | |
| | achievements of pupils from a certain theme; | | | | |
| | to carry out control and evaluation of | | | | |
| | educational achievements of pupils according | | | | |
| | to the criteria of evaluation and in accordance | | | | |
| | with the State requirements to the level of | | | | |
| | educational achievements of pupils, certain in | | | | |
| | the program from a certain object; | | | | |
| | 5) to design content and methodology of | | | | |
| | | | | | |
| | realization of educator measures for the elementary school pupils; | | | | |
| | | | | | |
| | 6) to conduct lesson at elementary school, the | | | | |
| | lesson review in relation to the achievement of | | | | |

| | it objective and tasks, to estimate efficiency of | | |
|--|--|--|--|
| | the applied forms; | | |
| | 7) to plane of the professional activity, | | |
| | realization of professional activity is | | |
| | purposefully in a logical sequence. | | |
| | 1) to carry out communication, oriented on | | |
| Communication (Com) | style of speech communication in the process | | |
| | of decision of professionally-pedagogical | | |
| | tasks; | | |
| | 2) to forecast, to design and correct | | |
| | pedagogical communication with other | | |
| | subjects of educationally-educator process for | | |
| | the elementary school on principles of ethics | | |
| | of professional communication, applying the rules of speech etiquette; | | |

Symbols for the matrix of providing programmatic learning outcomes by the relevant components of the educational program:

• – programmatic learning outcomes that are achieved;

O3 – compulsory courses of general training of the curriculum of a specialty;

B3 – disciplines of choice from the cycle of general preparation of the curriculum of a specialty;

 $O\Pi$ – compulsory disciplines of the cycle of professional training of the specialty curriculum;

 $B\Pi$ – discipline of choice from the cycle of professional training of the curriculum of a specialty;

3н – the serial number of the "knowledge" category in the list of programmatic learning outcomes in the program profile;

Вм – serial number of the category of "skill" in the list of programmatic learning outcomes in the program profile;

Ком – serial number of the category "communication" in the list of programmatic learning outcomes in the program profile;

AiV – the serial number of the category "autonomy and responsibility" in the list of programmatic learning outcomes in the program profile.

II. Attestation

Student attestation carried out by the examination commission after the completion of education at the educational level in order to establish the actual compliance of the level of training with the requirements of the educational program. A system of programmatic learning outcomes, defined in the educational curriculum of a specialist, provide for the student's certification. Form of attestation: qualification examination or get of the bachelor's thesis.

The qualifying work involves conducting analysis and theoretical development (simulation and research of processes and objects) of actual issues, problems in the relevant field of knowledge. The list of qualification papers for a specialty determine by the graduation department at the beginning of the academic year. The

subject of qualifying works should be directly relate to the generalized object of the activity of a specialist of the corresponding educational level. The list of themes approve by the order of the rector before the beginning of pedagogical practice. Students have the right to offer their own topic for qualification work.

The task of the qualification work should reflect all the production functions and typical tasks of the specialist's work and must timely brought to the student (before the beginning of the pedagogical practice).

Managers of qualification works can be professors, associate professors of the graduation department, as well as leading specialists of the manufacturing sector of the relevant branch.

Attestation of applicants for higher education of a bachelor's degree carried out by an examination commission, which may include representatives of employers and their associations, in accordance with the provisions of the examination committee, approved by the Academic Council of Rivne State Humanitarian University.

III. System of internal quality assurance of higher education

The Rivne State Humanitarian University has a system for providing higher education institutions with quality of educational activity and quality of higher education (internal quality assurance system), which provides for the following procedures and measures:

1) definition of principles and procedures for ensuring the quality of higher education;

2) monitoring and periodic review of educational programs;

3) the annual assessment of higher education graduates, scientific and pedagogical and pedagogical staff of a higher educational institution, and regular publication of the results of such assessment on the official website of the higher educational institution, on information stands and in any other way;

4) ensure the professional development of pedagogical, scientific and scientific and pedagogical workers;

5) ensure the availability of the necessary resources for the organization of the educational process, including the independent work of students for each educational program;

6) ensure the availability of information systems for the effective management of the educational process;

7) ensure publicity of information about educational programs, degrees of higher education and qualifications;

8) ensure an effective system for preventing and detecting academic plagiarism in scientific works of higher education and higher education graduates;

9) and other procedures and activities.

The system of providing higher education institutions with the quality of educational activity and the quality of higher education, upon submission by the Rivne State Humanitarian University, can assessed by the National Agency for the Quality Assurance of Higher Education or independent institutions accredited by it.

The education system to determine whether it is consistent with requirements provision of quality education by the National Agency for the Quality Assurance of Higher Education, and international standards and guidelines for quality assurance.

Guarantor of the Educational Program, leader of the project's team

doktor of pedagogical sciences, professor *Siranchuk Nataliia*
